To Arrive March 25

There is nothing that adds so much to the beauty and the value of your home as does a nice lawn. Modern practices have made lawn maintenance comparatively simple.

Ask for a free booklet on lawn making and maintenance.

**A Word to Gardeners and Farmers**

Our stock is selected with the greatest possible care, both to trueness of variety and germination test. And while in common with other seedmen, we cannot guarantee the resulting crop, our customers may rest assured that we will exert every effort to get the most pure and best seeds obtainable for our stock. Our nearness to you makes both for the personal desire to please customers whom we know and often meet, and convenience to you in ordering and quick delivery. We maintain for the entire San Juan Basin a retail service where a welcome awaits you. We invite you to our stores whether you buy or not. Perhaps we can offer some profitable suggestions in going over your gardening or farming problems.

## ARASAN COATED LEGUME & GRASS SEEDS NOW AVAILABLE

Thicker stands, stronger growing plants and uniform stands across the field are the benefits from treatment of grass and legume seeds with Du Ponts ARASAN. ARASAN applied with a Calkins Slurry Treater helps assure a good "catch" because it protects the tiny seeds against rot and seedling blight. We will treat with ARASAN for only 2 cents per lb., \$2.00 per hundred. Order your treated Grass & Legume seeds early to avoid delay at planting time.

**COPPER CARBONATE, 50%, 5 lb.** ..... 2.95

Copper Carbonate kills smut spores, insures your crop by treating your seed for smut.

## DU PONT SEED DISINFECTANTS—

Most growers are familiar with the destruction of potatoes, damping-off of all small seedlings and many similar diseases, which are surface seedborne. DuPont Seed Disinfectants pay large profits by destroying disease organisms before they can do damage by preventing seed rotting in cold, wet soils, by producing better stands of more vigorous plants, by increasing yields, and by improving crop quality.

## ARASAN COATED LEGUME &amp; GRASS SEEDS NOW AVAILABLE

Thicker stands, stronger growing plants and uniform stands across the field are the benefits from treatment of grass and legume seeds with Du Ponts ARASAN. ARASAN applied with a Calkins Slurry Treater helps assure a good "catch" because it protects the tiny seeds against rot and seedling blight. We will treat with ARASAN for only 2 cents per lb., \$2.00 per hundred. Order your treated Grass & Legume seeds early to avoid delay at planting time.

### WE OFFER TWO POPULAR HY-LINE VARITIES FOR 1957

**The 100 Series Hy-Line.** These sturdy egg machines are better than ever. Better in egg production—better in livability. Hens weigh 5 to 5½ lbs. and lay nice large creamy white eggs. The cockerels of this series make excellent fryers and will develop into a 3 lb. fryer from 10 to 12 weeks.

**The 900 Series Hy-Line.** This new White Egg layer is bred for heavy, economical egg production. It averaged 92% livability in 11 months of heavy lay in farm tests over 11 states last year. Eggs are pure white in color with heavy strong shells. Hens weigh 4 to 4½ lbs. and are white in color.
